About Adani Power

Adani Power Ltd is an electric utility company that produces and transmits energy from its portfolio of power plants located throughout India. The company produces most of its energy using thermal fuel sources, such as coal but also owns facilities that utilize solar and steam generation. Adani Power generates the vast majority of its revenue through the sale of electricity to state distribution companies and the transmission of energy to the state and central utilities. Most of the company's electricity sales are structured through long-term agreements. Adani Power is the largest private power producer in India, owns the world's largest private coal-based power plant, and is a part of the conglomerate that is India's largest importer of coal.
