About Siemens

Siemens Ltd produces systems and solutions for electrification, automation, and digitalization. The company produces energy-efficient technologies, solutions for power generation, and power transmission solutions. Siemens operates in many business divisions, including power and gas, energy management, building technologies, transportation, medical, and other industrial-related markets. The majority of transportation items service the rail industry and look to improve connections and locomotive components. It utilizes technology and research to create a product portfolio that can fit the needs of many customers. Sales to customers located in India account for the majority of total revenue.
