About Brazil Capped ETF MSCI iShares

iShares MSCI Brazil Capped Index Fund (the Fund), formerly iShares MSCI Brazil Index Fund, seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of publicly traded securities in the Brazilian market, as measured by the MSCI Brazil Index (the Index). The Index seeks to measure the performance of the Brazilian equity market.

It is a capitalization-weighted index that aims to capture 85% of the (publicly available) total market capitalization. The Fund invests in sectors, such as financials, energy, materials, consumer staples, utilities, consumer discretionary, telecommunication services, industrials, information technology and healthcare. BlackRock Fund Advisors (BFA) serves as the investment adviser to the Fund. .
