About iShares Core 1-5 Year USD Bond

The investment seeks to track the investment results of the Barclays U. S. Universal 1-5 Year Index, which measures the performance of U. S. dollar-denominated taxable bonds that are rated either investment-grade or high yield with remaining maturities between one and five years. The fund will invest at least 90% of its assets in the component securities of the index and in investments that have economic characteristics that are substantially identical to the component securities of the index and may invest up to 10% of its assets in certain futures, options and swap contracts, cash and cash equivalents, as well as in securities not included in the index.
