About Tyler Technologies, Inc.

Tyler Technologies, Inc. is a provider of information management solutions and services for the public sector, with a focus on local governments. The Company operates through two segments: Enterprise Software (ES) segment and The Appraisal and Tax (A&T) segment. ES segment provides municipal and county governments and schools with software systems and services for information technology and automation needs that includes back-office functions, such as financial management, courts and justice processes, public safety, planning regulatory and maintenance, and land and vital records management.

A&T segment provides systems and software that automate the appraisal and assessment of real and personal property, as well as property appraisal outsourcing services for local governments and taxing authorities. Through its subsidiary, Sage Data Security, LLC, the Company offers a suite of services that supports cybersecurity lifecycle, including program development, and education and training. .
